

Since 1911  
Vickery Place Neighborhood

# Support A Conservation District

March 2006 Update

*Vickery Place is changing. Change can be positive as long as we preserve the history and charm that make up the fabric of our neighborhood.*

We all enjoy the “neighborhood feel” of our area; the canopy of trees lining the streets, quaint homes with front porches, green space, sidewalks for kids to ride their bikes or neighbors to walk their dog, boutique shops and restaurants within walking distance, and even the neighborhood bar where everyone knows your name.

But, as witnessed in surrounding neighborhoods and now Vickery Place, speculative or incremental building has triggered a transformation of our neighborhood, changing the distinctive atmosphere and stylistic stamp of Vickery Place.

## 5<sup>th</sup> and FINAL CONSERVATION COMMUNITY MEETING!

**Monday, March 13, 7:00 pm**  
**Vickery Towers Dining Hall**

Please join us for this important meeting! This is the last in a series of Community Meetings conducted by the City of Dallas Planning Department. We will be reviewing the DRAFT Ordinance for the Vickery Place Conservation District, before it is submitted to the City Plan Commission.

The blocks in the "proposed district" are: 5300, 5400 Goodwin; 5300, 5400, 5500, 5600 Vickery; 5300, 5400, 5500 Miller; 5300, 5400 Willis; 5300, 5400, 5500, 5600 Richard

If your block is not included in the "proposed district" and you wish to append onto the Vickery Place CD once it goes through (you would be agreeing to the Vickery Place Conservation District ordinance), please contact Beth Bentley, 214 821-0831 or [info@vpna.org](mailto:info@vpna.org). We already have blocks working towards this end and they could use your help!

**Together we can decide the look of future development in Vickery Place!**
