

Since 1911
Vickery Place Neighborhood

Vickery Place Conservation District

July 2006 Update

**Vickery Place Conservation District is now the
15th conservation district in the City of Dallas!**

Acting on the recommendation of City Planning Staff, the City Plan Commission 12-1 vote in favor, and the majority of those in the notification area, the City Council voted unanimously to approve the proposed Vickery Place Conservation District.

Blocks in the VPCD include 5300 & 5400 Goodwin and Willis, 5300, 5400, 5500 & 5600 Vickery and Richard, 5300, 5400 & 5500 Miller. If you would like to work towards appending your block onto the CD, please contact Beth Bentley, 214 821-0831 or info@vpna.org.

'Thank you' for your continued support through this process. Just like the neighborhoods to our north and east, conservation status will protect our early 20th century architecture, maintain the scale, spacing and character of our homes, stabilize our community and increase neighborhood pride due to this recognition as a unique and special place!
